

**CMT/CAPT Science Summative Assessments
2016-2017 Test Administration Manual for Online Testing**

Errata Sheet

This sheet details two errors that occur in the 2016-2017 CMT/CAPT Science Test Administration Manual for Online Testing. These errors occur on pages 20 and 21 respectively in the printed version of the manual.

Page 20 error:

On page 20 the box of read-aloud directions begins with incorrect instructions which say:

You must answer each question on the screen before going on to the next page.

Neither the CMT nor the CAPT Science requires the student to answer items in any particular order. Students are allowed to move forward and backward through the test much like the paper-and-pencil version of this test. Therefore, this sentence has been removed from the updated version of this manual which is linked below.

Page 21 error:

The last box of read-aloud directions on page 21 should say:

When the test session is over

**SAY: This test session is now over. Please click SUBMIT TEST now.
I will now collect any scratch paper and other materials.**

Please note that both the CMT and CAPT Science are timed tests. These tests should be submitted, rather than paused, when the test session is over.

The updated version of the manual is available on the Connecticut State Department of Education Comprehensive Assessment Portal at the following link:
