

MANUALLY ENTERING DESIGNATED SUPPORTS AND ACCOMMODATIONS

The 2018-19 Smarter Balanced Interim Assessment Blocks (IABs) will be available for administration on September 26, 2018. There are some considerations that impact the selection of **accommodations** prior to test administration. Because the selection of accommodations in TIDE is **dependent on a student's special education and 504 status**, accommodations will not be selectable in TIDE until the 2018-19 Public School Information System (PSIS) student batch upload into TIDE occurs on November 26, 2018. If your school or district expects to administer an Interim Assessment Block prior to November 26, 2018, accommodations (both Embedded and Non-Embedded) will need to be manually entered in the **Test Administration (TA) Interface** at the time of testing. Information on how to manually enter accommodations is included below.

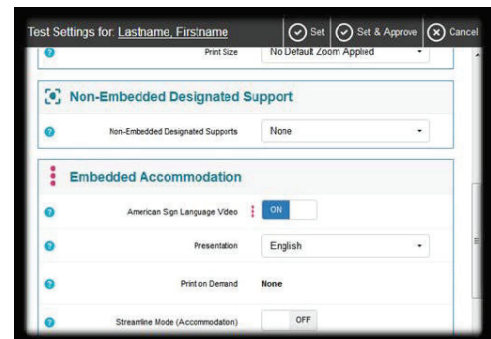

In contrast to the accommodations entry process, **Designated Supports** can be entered directly into TIDE by the District Administrator (DA) or School Test Coordinator (SC) either manually or via the upload process. These supports will be immediately visible to the School Test Administrator in the TA Interface and will be immediately available to the student for use while taking the IAB. Once a designated support is set in TIDE, this setting will persist in TIDE.

ENTERING ACCOMMODATIONS

- From the Connecticut Comprehensive Assessment Program portal (<https://ct.portal.airast.org>), select the Smarter Balanced Card. 
- Click on the **Test Administration** card and log in. 
- Select the block to be administered from the menu.
- To check a student's test settings and accommodations click  for that student. The student's information appears.

- Before approving the students' tests, enter designated supports and accommodations. The Test Administrator will need to set **accommodations** for each applicable student every time an Interim Assessment Block is administered.
